PREPARAZIONE PREPARATION

🇮🇹 Desco è un marchio di Ilsa spa.

La sua storia ha origine nel **1962** quando una piccola impresa artigiana di Reggio Emilia iniziò la produzione di attrezzature per bar e per la piccola ristorazione.

In seguito, nel **1980**, da un'idea del titolare e del responsabile commerciale, nasce il macchinario italiano grazie al quale Desco è stato riconosciuto a livello mondiale come inventore del **CUOCIPASTA**.

Alla fine degli anni 80 Desco continua la sua ascesa nel mercato mondiale di cucine industriali ampliando la sua gamma con la **SERIE 700 e 900**.

Nel **1992** brevetta il **MODULINO ALZACESTELLI** abbinato al cuocipasta per l'automatizzazione della cottura della pasta.

Nel **2001** crea "**LA FRIGGITRICE AD ALTO RENDIMENTO**" alla quale tutt'ora viene riconosciuta una resa superiore del 20% rispetto a molte delle migliori friggitrice presenti sul mercato.

Nel **2005** Desco entra a far parte del gruppo **Ilsa spa**.

Nel **2007** Desco decide di rinnovare completamente la sua gamma con un **DESIGN NUOVO** e innovativo dando allo Chef la possibilità di scegliere una cucina professionale capace di rispondere alle necessità di affidabilità, potenza ed eleganza.

Ad oggi, in una struttura di 12.000 mq, l'azienda è dotata di un sistema di controllo qualità che prevede: verifica delle materie prime, collaudo dei prodotti, ispezione prima della spedizione e, infine, archiviazione automatica e valutazione periodica delle segnalazioni di difetto ricevute. La vasta gamma di attrezzature per la **REFRIGERAZIONE**, la **PREPARAZIONE STATICA**, il **LAVAGGIO**, il **SELSERVICE**, le **TRE linee** complete di **COTTURA** e l'ampia linea di **FORNI** permette ai professionisti del settore di ottenere cucine professionali complete e ad elevate prestazioni.

Ideate da un'azienda che da sempre crede e investe su sviluppo e ricerca, le cucine italiane Desco sono tra le più affidabili, potenti e sicure presenti sul mercato di tutto il panorama internazionale.

🇬🇧 Desco is a company which is part of the group Ilsa spa since 2005.

His story begins in 1962 when a small craft business of Reggio Emilia began manufacturing equipment for bars and snack bars.

Later, in 1980, the brainchild of the owner and sales manager, was born the Italian machinery that will ensure that Desco is globally recognized as the inventor of PASTA.

At the end of the 80 Desco continues its meteoric rise in the world market of industrial kitchens expanding its range with **SERIES 700 and 900**.

In 1992 he patented the **ALZACESTELLI** modulate combined with pasta cooker for the automation of the pasta cooking.

In 2001 he created "**THE DEEP FRYER HIGH PERFORMANCE**" which is still recognized a higher yield of 20% compared to many of the best deep fryers on the market.

In 2007, Desco decided to completely renew its ranges donating to a **NEW DESIGN** and innovative giving the chef a chance to choose a professional kitchen capable of responding to the needs of reliability, elegance and power.

To date, in a facility of 12,000 square meters, the company has set up a quality control system that provides verification of raw materials, product testing, inspection before shipment, and finally, automatic archiving and periodic assessment of reported defect receipts. The wide range of equipment that perfectly modular refrigeration, **STATIC PREPARATION**, washing, **SELSERVICE**, the complete lines of **THREE COOKING OVENS** and the broad line allows professionals to get professional kitchens complete and high performance.

Designed by a company that has always believed and invests in research and development, kitchens Italian Desco are among the most reliable, powerful and safest on the market of the whole international scene.

🇮🇹 Ogni singolo elemento che compone una cucina è un mondo tutto da scoprire. I prodotti DESCO infatti sono studiati per integrarsi all'ambiente di lavoro, offrendo una base perfetta su cui poter contare, grazie alle loro caratteristiche tecniche e funzionali. Ogni macchina DESCO si fonde con la mente creativa degli chef moderni, per creare veri capolavori culinari, grazie ad attrezzature affidabili oltre ogni aspettativa.

Per la preparazione statica, affidabilità diventa sinonimo di robustezza, flessibilità e funzionalità. DESCO ha implementato in tutti i prodotti della linea, sistemi costruttivi innovativi per garantire solidità della struttura, velocità di pulizia e semplicità di manutenzione e una vasta disponibilità di modelli e misure per offrire la massima libertà di scelta nella composizione.

DESCO sarà il tuo successo.

🇬🇧 Each constituent part of a kitchen is a world to be discovered. In fact, Desco products are studied for their integration into the working environment, offering a perfect countertop to rely on, thanks to the technical and functional features they have. Each Desco machine combines with the creative mind of modern chefs in the creation of real culinary masterpieces, thanks to unexpectedly reliable tools.

For static preparations, reliability is synonym with sturdiness, flexibility and functionality. DESCO has implemented innovative construction systems for all products of the line so to offer a solid structure, quick cleaning and easy maintenance as well as a wide range of models and dimensions to offer the utmost freedom of choosing your composition.

DESCO will be your success.

Mod. TGGN0092

Per consentire un allestimento completo e su misura della zona preparazione, una linea completa di tavoli e lavatoi su gambe e armadiati, lavatoi a sbalzo per inserimento lavastoviglie, cassettiere e pensili, tutti in diverse versioni e numerose misure di serie. I prodotti sono costruiti in acciaio inox con un'attenzione particolare nel conferire al design dell'elemento massima ergonomia e versatilità nella manutenzione e nella pulizia.

Mod. LGLN0002

Mod. LFLA0005

For a complete and custom-made fitting of the food preparation area, the line is provided with tables and sinks with legs and on cabinets, sinks for built-in dishwashers, drawers and wall cupboards in different versions and many production measures. Products are built in stainless steel, drawing special attention to the maximum ergonomics of the design and versatility of maintenance and cleanup.

Mod. LGGN0053

La linea dei componibili offre la libertà di progettare aree dedicate alla preparazione, personalizzabili con elementi neutri e macchine per la refrigerazione. Sotto i piani di lavoro infatti è possibile inserire cassettiere, tramogge, armadietti ed elementi armadiati portateglie, alternati a tavoli refrigerati e abbattitori di temperatura orizzontali.

A complete range of fitted units makes you free to arrange areas for the preparation of food. These areas can be organised as you wish, with neutral elements and refrigerating machines. In fact, drawers, hoppers, cabinets and baking tin cabinet units alternate to refrigerating tables and horizontal temperature chillers.
